Oklahoma City, OK 73118  
405.642.8786 office  
405.604.6979 fax  
seg@coxinet.net

*Company Description:* Structural Engineering Group is a structural engineering firm that has significant expertise in representing architects and developers. What makes us different? Two of our senior engineers had significant careers as Professional Engineers before joining the firm. We pride ourselves in our special capabilities to provide representation to our professional clients across a wide array of engineering issues. We bring something to the table that is often lacking in most consulting firms a true understanding of our business coupled with technical training, to efficiently handle complex problems. Our web site is [www.segokc.com](http://www.segokc.com).
