

Gibran Pristi

gibranpristi@gmail.com | 539-333-1320 | <https://www.linkedin.com/in/gibranm-pristi/>

A highly motivated individual who prides himself in being multicultural, driven by ambition, hard work, and optimism.
Willing to relocate.

RELEVANT EXPERIENCE

CWA Group | *Project Manager*

Norman, OK | 06/2024 – Present

- Contributed to K-12 and technology center educational projects across urban and rural Oklahoma, specializing in various construction types such as Concrete Masonry Units (CMU), pre-engineered metal buildings (PEMB), and insulated concrete forms (ICF).
- Managed projects with budgets ranging from \$5M to \$40M, ensuring alignment with both client goals and project specifications.
- Led the production of architectural drawings, ensuring quality control throughout all phases—from schematic design to construction administration.
- Prepared redlines and revisions as directed by the project architect to ensure accurate and timely updates.
- Conducted code compliance reviews to ensure adherence to fire and life safety regulations, facilitating project approvals.
- Assisted in preparing the Revit model for Schematic Design and Design Development phases, ensuring smooth project transitions.
- Reviewed and responded to submittals from the construction manager using Bluebeam and Procore, ensuring compliance with project requirements.
- Coordinated project information and facilitated communication between the construction manager, engineering consultants, and other stakeholders to streamline project workflows.

HSE architects | *Architectural Intern*

Oklahoma City, OK | 08/2023 – 01/2024

- Teamed with licensed architects and project managers to coordinate the design, specifications, and code compliance for housing units ranging from \$500,000 to \$1,500,000 in Nichols Hills, Oklahoma.
- Responsible for overseeing the quality control and intricacies of construction documentation and specifications for three housing units.
- Employed AutoDesk Revit in conjunction with BlueBeam Revu to handle Requests for Information (RFIs) from general contractors.
- Led and crafted the 3D Building Information Modeling (BIM) model for the housing units, including the modeling of interior features and MEP systems.

Standard Roofing Company | *Construction Field Intern*

Oklahoma City, OK | 05/2023 – 08/2023

- Managed and directed roofing production for the Hobby Lobby distribution center project worth \$100,000,000, leading a field team of five individuals in collaboration with project managers and superintendents.
- Arranged and cataloged roofing materials and tools within the company warehouse, while also aiding CDL drivers in transferring these resources from the warehouse to the project site.
- Collaborated with the superintendent and yard crew to relocate 2 acres of polyiso insulation bundles from on-site storage to the active job site, utilizing heavy machinery such as Skytrak and Skid steer to optimize operational efficiency.
- Engaged in hands-on tasks by actively participating with a crew of 20 roofers and 2 foremen, navigating through challenging environmental conditions.
- Thoroughly reviewed, assessed, and interpreted contracts, RFIs, submittals, and site inspections to enhance workflow efficiency for the project manager.

EDUCATION

University of Oklahoma | *Master of Architecture*

Norman, OK | 06/2023 – 05/2024

University of Oklahoma | *Bachelor of Architectural Studies*

Norman, OK | 08/2019 – 05/2023

Academic Initiatives Abroad (AIA) Rome Study Abroad Program

Rome, Italy | 01/2022 – 05/2022

- Exposed to the historic and traditional practice of architectural design and construction principles.
- Overcame the adversaries of the challenges of traveling and living abroad.
